Examiner's Statement of Reasons for Allowance

1. Claims 1, 2, 4, and 6-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: After further reviewing the Applicant's argument (Appeal Brief, pages 15-25), the argument presented in the Argument section of the Appeal Brief is persuasive and distinguishes the claims from the applied art. The rejection/objection of the above claims has been withdrawn and all the pending claims are allowed because the applied art (Brondsted in view of Wren) fails to teach the *independent* claim 1 recitation of "*receiving additional external information that characterizes at least one machine-sensible features of a target*". Similarly, the applied art fail to teach the independent claim 13 recitation of "*inputting further information about a machine sensible characteristic of said target*". The applied art also fails to teach the independent claim 14 recitation of *orienting an instrument with respect to the target to acquire the target in response to both spatial and further information to reduce an ambiguity in said position of the target. By virtue of dependency, dependent claims 2,4, 6, 7 and 15 are also distinguishable from the applied art.*
